

IN THE CLAIMS

Please amend the claims as follows.

1. (Cancelled)

2. (Cancelled)

3. (Cancelled)

4. (Currently Amended) A packaging (1) for a cosmetic and/or pharmaceutical composition, comprising a container (3) for receiving a cosmetic and/or pharmaceutical composition (5) and a cover (6), comprising a mechanism of attachment (11[[37]]) to container (3, [[29]]) and a sealing wall (15) for sealing an opening (7, [[17]]) of the container, the sealing wall (15) ~~comprising a flexible wall being~~ elastically deformable by application of a pressure differential, the cover (6, [[31]]) further comprising [[a]] an extension having a wall 21 ~~wall (41) facing the container (3) and a side of wall (9, 21) facing the container (3, 29) that is provided with radial rib (23) whose~~ the extension comprising an annular rib (23) having a thickness in a non-constrained state that is greater than an average distance between the wall (21) of the extension and radial internal wall of container (3) ~~radial extent is greater than the distance between the walls and container~~ so as to hermetically seal the opening (7) of the packaging.

5. (Currently Amended) The packaging according to claim 4, wherein the sealing wall (15) comprises a wavy wall with concentric patterns (19) for[[m]] increasing the flexibility of wall (15) in a direction normal to opening (7, 17) which is to be sealed.

6. (Currently Amended) The packaging according to claim 4, wherein the container and sealing wall comprise ~~packaging comprises a form of a box-shape that includes~~ with small thickness when it is provided with a middle platform (31), a delimiting upper ventilated compartment (33) an ~~[[and]]~~ internal chamber (7) for receiving cosmetic and/or pharmaceutical

composition (5), wherein the platform forms a cover for the ~~latter compartment~~ internal chamber (7).

7. (Currently Amended) The packaging according to claim 4, further comprising receiving means for receiving removable container (29) forming a refill of cosmetic and/or pharmaceutical composition (5).

8. (Currently Amended) The packaging according to claim 7, further comprising a receiving opening and locking means for locking in position, ~~particularly by clipping, of a~~ removable container (29) in a form of a trough or cup, whose opening (17) opens inside the packaging.

9. (Currently Amended) The packaging of claim 7 wherein the cosmetic and/or pharmaceutical composition[,] comprises one or more of a ~~particularly a~~ foundation, cream, rouge or lipstick, ~~comprising the packaging of claim 7.~~

10. (Currently Amended) The cosmetic and/or pharmaceutical composition of claim 4, further comprising a ventilated compartment (33), with a mechanism of application of cosmetic and/or pharmaceutical composition (5) comprising a ~~of the sponge or Japanese foam~~ type.

11. (Previously Presented) A sealed packaging for cosmetic or pharmaceutical compositions comprising a sealed compartment (12) defined by container (1) and fitted cover (3), comprising radial first and second walls that are arranged a distance d apart from one another; wherein the first wall (9, 15) is provided with annular rib (19) having a radial extent in the direction of the second wall (15, 9) which is greater than d , the rib 19 being elastically deformable by application of a pressure differential, exerting on the second wall (15, 9) a radial force ensuring temporary hermetic sealing of sealed compartment (12) of the packaging.

12. (Original) The packaging according to claim 11, further comprising [means] a mechanism of locking (37) [of] the packaging in a closed state in which sealed compartment (12) is hermetically sealed.

13. (Previously Presented) The packaging according to claim 11 further comprising an annular rib (23) arranged on a radially external side of wall (15) of cover (6) arranged opposite a radially internal side of wall (9) of container (1).

14. (Previously Presented) The packaging according to claim 11, further comprising a container (1) having two parallel walls (9, 9') and a rib (23).

15. (Previously Presented) The packaging according to claim 11 further comprising a container (1) having wall (9,9') delimiting space (12) for storage of cosmetic and/or pharmaceutical composition, which has an undercut shape.

16. (Previously Presented) The packaging according to claim 11 further comprising a cover (6) having wall (21) deformable by a difference in pressure exerted on its two main sides so as to ensure compensation for this difference in pressure.

17. (Original) The packaging according to claim 11, further comprising having a shape of a box which has lower part (25, 25') forming or receiving container (3, 40, 40'), separation platform (30') forming a cover for a sealed compartment and upper part (27) forming a cover for the box.

18. (Original) The packaging according to claim 11, further comprising a platform (30') that delimits a chamber for receiving means of application of the cosmetic or pharmaceutical composition, which has openings ensuring the ventilation of this chamber.

19. (Original) The packaging according to claim 11, further comprising a box which has a receiving opening and means of locking in position, in particular, means (42, 45) of clipping of removable cup (33').

20. (Original) A cosmetic or pharmaceutical composition, particularly foundations, creams, rouges, lipsticks, further comprising positioning in packaging according to claim 11.

21. (Currently Amended) The packaging according to claim 11, further comprising [A] a refillable packaging [for a cosmetic and/or pharmaceutical composition, which has] comprising an external envelope (1), defining an [wherein the external envelope (1) is provided with] opening (46) for receiving [container (29) of] a refill of cosmetic [and/]or pharmaceutical composition (5), the refillable packaging further [comprising] defining an opening (41) [of container (29)] that opens inside external envelope (1), and locking means [of locking (39) of container (29) of] for locking the refill in position [in the packaging].

22. (Cancel)

23. (Currently Amended) The packaging according to claim 21 [further comprising] wherein locking means [of locking that has] comprises projecting elements (50, 51) ensuring the locking. [and holding by clipping of container (29) of the refill in the packaging.]

24. (Currently Amended) The packaging according to claim 21 further comprising sealing means (11, 41) for [of] hermetic sealing of [container (9) of] the refill, the sealing means [provided with] comprising a rib (23) which is [applied] positioned radially on wall [arranged] facing the rib [it] in order to ensure [said] hermetic sealing.

25. (Cancel)

26. (Currently Amended) The packaging according to claim 21, wherein said packaging [is] comprises a flat box and [in the container (29) of] the refill [is] comprises a trough or a well.

27. (Cancel)

28. (Original) The packaging according to claim 21, further comprising a platform (29) delimiting chamber (17) for receiving cosmetic and/or pharmaceutical composition (5) and a ventilated compartment (33) for receiving means of application of cosmetic and/or pharmaceutical composition (5).

29. (Currently Amended) The packaging according to claim 21, [wherein] further comprising a platform (30) [ensures the hermetic sealing of container (29) of the refill wherein said platform (30) can be] which is deform[ed]able so as to allow compensation for the difference in pressure between the interior and the exterior of [container (29) of] the refill.

30. (Original) A cosmetic and/or pharmaceutical composition, characterized in that it is packaged in a packaging according to claim 21.

31. (Cancel)

32. (Cancel)
